The Original Field Service Crane For More than a Half-Century

As the inventor of the original service crane, which revolutionized safety in equipment service, Auto Crane offers a comprehensive line of electric and hydraulic telescoping cranes to meet the needs of the heavy-equipment industry—whether it’s mining, construction, energy, or other industries that require the ultimate in safety and reliability.

As the world innovator of ultimate crane safety, Auto Crane’s NexStar™ crane control technology delivers unprecedented control right from the operator’s hands and provides a virtual second shield of defense, preventing the operator from unsafe overload conditions even in the harshest environments.
